

**ST BERNADETTE'S CATHOLIC PRIMARY SCHOOL
Nature Playground Initial Equipment List**

Dear Parents,

As you are aware the school is in the process of developing an area of the school into a Nature Playground. This area will be accessible to all students and will have many elements that children can explore and engage with.

I have put copies of the drawings for this play area around the school. You can look at these outside the school office. The drawings show the plan and photographs of the various elements.

Please find over the page a list of materials required for this project. If you are able to provide us with any of the listed items please add your details to the slip at the back of this leaflet. Later this year I will provide the designer with a list of all the items we can supply as a school.

The designer we have chosen is happy to work with communities so that materials that would go to the tip are used to create nature play areas. Sourcing materials this way keeps down the costs of the project.

It is also important that we find out what trades, skills or equipment parents may have so that we can further reduce our costs and potentially carry out some of the work using the skills of our community members.

Our aim is to have this play area ready for use in the second half of 2016.

We really need lots of parent power leading up this date to get the job done. As the project progresses we will be asking for your help.

If you have any of the listed skills, please add in your contact details also on the back of this leaflet and we will be in touch very soon.

Please either email the completed attached sheet to admin@stbernadettes.wa.edu.au or hand in to the office by Thursday 29th October.

Steve Gibbs

Principal

ITEM	QUANTITY	DESCRIPTION
Tree logs	8	3-5 metres long, 300-500mm diameter. Termite resistant – Jarrah, Tuart, Wandoo, Lemon Scented Gum.
Tree stumps	8	Termite resistant – as above
