

Instruments for Primary School

Tromba Pro Plastic Trombone

~~\$ 180.00~~ \$ 195.00 AUD

The Tromba Trombone is a unique playing experience. Why? Because it's the only plastic trombone on the market with a lead pipe. So you get the best of both worlds: the lightness and fun of plastic, and the crisp tone of metal.

Tromba Plastic Bb Trumpet (Trompet)

~~\$ 220.00~~ \$ 250.00 AUD

This apparently plastic trumpet has two sneaky secret ingredients: metallic valves and a lead pipe.

Part of Tromba's True Note Technology, this clever use of metal where it matters ensures both sound and playability stay sharp.

All the benefits of a plastic trumpet, none of the compromises.

Colour Customisation Kit

The OPTIONAL Tromba Trumpet Colour Customisation Kits allow you to add a bit of extra colour to your Tromba Trumpet. For example, if you wanted a blue trumpet with red accents, you might buy a blue trumpet and a red customisation kit. They also serve as spares if you wanted to be a little creative with them.

jFLUTE

The **NEVO jFLUTE** has the pleasure to change your instrument as you learn to play. There are only few maintenance instruments allow for purpose and the professional players to be used in your study (see images of public school where they have been recently used across in our education).

Kelley Kirk
composer, 27

The **NEVO jFLUTE** has a smooth and resistant tone. It is lightweight, durable and features an easy blowing for clarity - the perfect choice for a child's first flute. Suitable for ages 4 to 10 years.

The **FLUTE** also features a curved head joint, left hand key extension and is adaptable to a straight head flute when the student is ready for **FLUTE upgrade kit**.

The **FLUTE kit** includes the **flute** to play, a **recorder-like flutes** to encourage students to first few lessons.

The **FLUTE** is 100% resistant so it can be washed frequently and won't get damaged if played outside in the rain!

NEVO jFLUTE STANDARD KIT

Includes:

- Flute Kit
- Recorder-like flutes
- Head joint
- Left hand key extension
- Carrying case
- Carrying strap

flute as the child grows

STUDENT FLUTE

The **NEVO Student Flute** has been highly acclaimed by teachers and professional musicians around the world. As well as being a perfect instrument for a young student, it also makes an exciting alternative flute for a hobbyist or accomplished flute player.

Given it is a flute, it will be acquired and drilled by the hand and responsive tone. The **NEVO** weight around half the weight of a traditional flute and is extremely durable and easy to maintain.

Try a flute for all occasions, jumping in the tub, playing at the beach, down at the beach or even in the pool! The **NEVO** is equally at home at the concert hall or on the marching band field.

Dr. Cassandra Eisenbach
Music, FL, USA

jSAX

The **NEVO jSAX** opens up whole new opportunities for kids to take up the sax at an early age.

The **jSAX** follows traditional saxophone fingering patterns and enables kids to develop embouchure and blowing skills. It has a surprising melodic sound and is a lot of fun to play even for an accomplished saxophone player.

The **jSAX** is pitched in C like all other **NEVO** instruments so it can play all **NEVO** music (see page 10). It has a fully chromatic range from middle C to G in the next octave.

While the curved instrument is perfect for kids, some adults may find the straight operation comfortable. The "Straighten your **jSAX** kit" provides a straight neck and bell to transform your **jSAX**.

The standard kit includes moulded case and carry strap.
